### **DETAILED ACTION**

Claims 1-30 are pending in the application.

#### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group 1. A process for producing an organic hydroperoxide according to claims 1-12, classified in class 568, subclass 342+.

Group 2. A process for producing an organic hydroperoxide according to claims 13-24, classified in class 568, subclass 28+.

Group 3. A process for producing an organic hydroperoxide according to claims 25-30, classified in class 568, subclass 45+.

The inventions of Groups 1-3 are independent and patentably distinct because there is no patentable co-action among the three groups and a reference anticipating one member will not render the other obvious.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter and as shown by their different classification, a search of the three groups designated above would impose an undue burden upon the examiner, and restriction for examination purposes as indicated is therefor proper.

A telephone call was made to John Cutts on 8/16/04 to request an oral election to the above restriction requirement, but did not result in an election being made.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Chukwuma O. Nwaonicha whose telephone number is

571-272-2908. The examiner can normally be reached on Monday thru Friday, 8:30am to 5:00pm.
